

**All of our letters live on this block of ice in the sea.
The ice can help us work out how tall or small
they should be.**

sky

ice

sea

t is a little bit shorter than the others!

b d h k l t

These letters go up into the **sky**. They are **ascenders**.

gip qu

These letters go down into the **sea**. They are **descenders**.

a c e i m

All other letters sit nicely on the **ice**. They are **small letters**.

norsu

All other letters sit nicely on the **ice**. They are **small letters**.

V W X Z

All other letters sit nicely on the **ice**. They are **small letters**.

f

f is cheeky – he goes across all 3!
